

SARCA EXCEL ANCHOR MEASUREMENTS

GALVANIZED AND STAINLESS STEEL

Anchor Size	Boat Length In metres	Boat Weight In Tons	Weight Of the Anchor	Overall Width mm	Overall Height mm	Overall Length mm	Length Front side of SHANK to TOE	Height Underside of SHANK to TOE	Bow Roller to front end of SHANK
No 1	Up to 5 metres	Up to 1.2	17 lb / 7.5kg	250mm	270mm	670mm	220mm	220mm	485mm
No 2	5 -7 metres	1.2 to 2.8	20 lb / 9.5 kg	280mm	295mm	730mm	235mm	235mm	535mm
No 3	7-10 metres	2.8 to 3.5	26 lb / 12.5kg	310mm	330mm	810mm	270mm	270mm	590mm
No 4	10-12 metres	3.5 to 7	37 lb / 16 kg	340mm	360mm	880mm	290mm	290mm	655mm
No 5	12-15metres	7 to 15	47 lb / 22 kg	390mm	405mm	990mm	320mm	320mm	745mm
No 6	15-17 metres	15 to 21	65 lb / 30 kg	420mm	430mm	1030mm	350mm	350mm	815mm
No 7	17-19 metres	21 to 24	80 lb / 36 kg	435mm	470mm	1110mm	370mm	370mm	840mm
No 8	19-21 metres	24 to 28	88 lb / 40 kg	460mm	490mm	1140mm	390mm	390mm	880mm
No 9	21-23 metres	28 to 32	110 lb / 50 kg	470mm	500mm	1240mm	400mm	400mm	915mm
No 11	23-25 metres	32 to 36	120 lb / 55 kg	490mm	530mm	1280mm	430mm	430mm	950mm
No 13	25-27 metres	36 to 42	138 lb / 63 kg	510mm	540mm	1310mm	430mm	430mm	990mm
No 15	27-29 metres	42 to 57	188lb / 88kg	570mm	640mm	1400mm	530mm	530mm	1185mm
No 17	29 -31 metres	57to 65	262 lb / 125 kg	570mm	640mm	1400mm	530mm	530mm	1185mm
No 19	31 - 45 metres			In Development					
No 21				In Development					

NOTE: These measurements are a guide only as there are many variables to consider when selecting your anchor size. For boats operating under survey you should check with your local marine authority for compliance of anchor weight.

All Anchor Right Australia's products are Patented or Patent pending for Worldwide distribution. Due to continual development and improvement of our product; specifications and weight may change without notice.
